Over the past 10 years, I have been teaching exercise and fitness seminars around the nation to thousands of Employers, HR, Safety and Benefits Managers, MD's, PT's and Chiropractors. I've also assisted hundreds of Employers with customized fitness and wellness programs. This interactive session will focus upon how employers can decrease unnecessary healthcare costs through injury prevention, proper posture and thorough wellness/exercise programs.

*Brad Feldner DC, ACRB Level I*

**Health Care Costs are out of control and Employers are seeking more cost effective methods to:**

- Improve profitability & productivity
- Locate problems before injuries occur
- Provide wellness perks/benefit programs
- Reduce new or recurring injuries
- Reduce lost time from work
- Reduce W/C costs
